

Reading University Head of the River 2023

Boating times – version 2

To ensure that the head starts on time and to avoid participants getting cold while waiting for other crews, please stick to the boating times below. No crews will be allowed to boat after 30 minutes before the start of a division.

All crews must be in their correct marshalling positions, **facing upstream**, by **10 minutes** before the start of racing. Failure to comply may result in **disqualification** of that crew.

Any crews arriving late at the marshalling area and permitted to race will be held back to start at the end of the division.
